this selected issues paper and statistical appendix constructs an index of human capital for the spanish labor force over 1977-97 and projects it over the next decade on the basis of likely demographic developments the methodology by which the index is constructed considers both educational attainments resulting from formal schooling and improvements in workers productivity resulting from experience or learning by doing the results suggest that the gains from increases in formal schooling can be large although they are translated into higher economic growth only gradually

when the syrian regime used sarin and other chemical weapons against dissidents in august 2013 an estimated 1729 people were killed including 400 children president barack obama warned that the use of chemical weapons would constitute a red line but he refused to take military action trump's approach has been even more disengaged and lacking in clarity frontline syria highlights america's failure to prevent conflict escalation in syria based on interviews with us officials involved in syria policy as well as un personnel the book draws conclusions about america's role in world affairs and its potential to prevent deadly conflict it also highlights the role of front line states in syria and other countries who engaged in the syrian conflict to advance their national interests covering key turning points in the syrian civil war including the impact of recent decisions by the trump administration frontline syria critically evaluates america's global power and provides a diplomatic and military history of the conflict based on this analysis the book offers policy recommendations and makes a case for america's future role addressing peace and conflict

the arab spring did not arise out of nowhere it was the physical manifestation of more than a decade of new media diffusion use and

experimentation that empowered ordinary people during their everyday lives in this book billie jeanne brownlee offers a refreshing insight into the way new media can facilitate a culture of resistance and dissent in authoritarian states investigating the root causes of the syrian uprising of 2011 new media and revolution shows how acts of online resistance prepared the ground for better organised street mobilisation the book interprets the uprising not as the start of syria s social mobilisation but as a shift from online to offline contestation and from localised and hidden practices of digital dissent to tangible mass street protests brownlee goes beyond the common dichotomy that frames new media as either a deus ex machina or a means of expression to demonstrate that in syria media was a nontraditional institution that enabled resistance to digitally manifest and gestate below within and parallel to formal institutions of power to refute the idea that the population of syria was largely apathetic and apolitical prior to the uprising brownlee explains that social media and technology created camouflaged geographies and spaces where individuals could protest without being detected challenging the myth of authoritarian stability new media and revolution uncovers the dynamics of grassroots resistance blossoming under the radar of ordinary politics

underpinning contemporary political debates and organizational restructuring is a serious rethinking of rights and responsibilities in the roles of governments communities companies and individuals in a civil society international rights and responsibilities for the future provides a foundation for these debates by focusing on the need to reintegrate rights and responsibilities with contributions by authorities engaged in the process a wide range of notable figures weigh in on the subject audrey r chapman argues for a revisioning of human rights as an instrument through which interrelated persons shape and reshape a social covenant defining reciprocal rights
